cc:
Subject: August 15 - 1:30 PM - Conference Call on Preliminary Draft Temp TMDL

August 15, 2002 - Conference call on the Preliminary Draft Temperature TMDL

1:30 pm (PST) - 4 pm (PST)

We have 10 lines. I suggest the DEQ and EPA (Russell, Bob, Rick, Helen and Mary Lou) folks use the same line. (Rick Parkin will be here in Portland).

Call in number: (b) (6) #

Directions: Dial 1 plus the area code (202) and the 7-digit telephone number and then enter your conference code followed by the "#" sign. If you call in too early, do not enter the code correctly, or you are calling from a rotary telephone, you will not be connected directly to your call but will be defaulted to the "Waiting Room" where an operator will assist you.

Updates:

- The Monthly TMDL meeting will be held on August 22nd here in Portland, however, the August 23rd CRITFC meeting has been postponed. More information will be provided electronically on the August 22 meeting tomorrow.
- EPA is meeting with the FCRPS Action Agencies on September 4 in Portland to review the Draft Preliminary TMDL. States and tribes are welcome at that meeting. Meeting details will be provided.
- EPA is briefing the RA, John Iani, on August 21 on the Preliminary Draft.
- Here is the proposed list of workshop dates and locations:

September 25 - Lewiston,

September 26 - Tri-Cities

October 1 - Portland

Here are the issues that came out of the July 25 meeting. Some have been resolved.

State Issues

Idaho:

1. Section 3.3 - Daily x-section average concerned about rationale

2. Section 3.1 - DWK releases 91-99 only - is not adequate mis-states "natural"
3. "DELTA T" should be target, not target temperatures

Washington:

4. Canada water temperatures - how would changes affect TMDL?
5. Target needed for mid-Lake FDR
6. Should TMDL address compliance measures, like assessment to 30 year mean?
7. Limit TMDL compliance to critical period (late summer/fall) (Oregon too)
8. Should dams with smallest impacts get an allocation?

Oregon:

9. Remove references to climate change and global warming (without a big discussion)

"Time Killer Issues!"

1. General Permits - Jannine will fix
2. Smaller big point source numbers? Mike and Bob
3. Zero out non-dischargers? Mike and Russell
4. Draft summary implementation strategy - Mike (w/OR, ID, CT, ST)
5. NMFS Consultation - Mary Lou
6. ID issues: needs a conference call - Rick and states (Don, Bob and Paul)
